## Machine information:

### Effect

- Realistic 'dry foam', litter free, falling snow
- Approx. 8m snow projection
- Three-dimensional and rapid decaying flakes, suitable for close up camera work where the snow appears to 'melt'
- Consistent flake size and shape

### Features

- Quiet falling snow machine
- 15-meter snow delivery hose
- Heated unit can be left outside in temperatures as low as -5 Deg C (provided the machine remains powered).
- Can be handheld, mounted on a stand or hung by its bracket
- Quick release gauze
- Specially shaped gauze shroud gives flake uniformity

### Control

- Weather resistant, digital timer, handheld remote. Settings accurate to seconds for run and delay. No batteries required.
- Accurate flake size adjustment
- Accurate fan speed control
- Basic 24/7 onboard timer which can turn the output off at night and back on in the morning
- Full DMX 512 control, allows multiple machines (up to 170 on a single DMX universe) to be controlled from a single point

### Protection

- Weatherproof (with the lid of the machine closed)
